

About Rick & Bobbie Caylor

Rick and Bobbie Caylor is a God Loving couple that believes in Jesus Christ.

We are a husband and wife team that work together in a small home business that used to only be a hobby.

We have been in business now as Ricks Satellite for 14 years.

We support the Patriot movement and are grateful for having to get to know The Power Hour.

Both Bobbie and I have gone through some hard times in the past 10 years, with losing Bobbie's younger brother to a brain tumor, her Mother to Pancreatic cancer and her Father to bad health in old age and we lost my parents to murder and robbery in their Bible Store and then my colon ruptured and I almost left Bobbie.

It was with the power of prayer from many people, including the big world of The Power Hour Listener's and some very helpful information from Joyce, that allowed me to make a recovery and go from almost losing our home and vehicles to paying off our bills and building our business.

So now we say, It's another Great Day To Be Alive and do our best to remain humble and thankful and try to give back.
