

Fritz Springmeier is probably the world's foremost authority on the bloodlines of the Illuminati and the techniques they employ to create a mind controlled slave. His books on mind control (co-authored with former Illuminati programmer Cisco Wheeler) are without peer in depth, rigorous detail, and uncompromising accuracy.

His lecture on **the Illuminati** and mind control given at the Granada Forum in 1998 was the best and most astute presentation on the subject. Naturally, anyone who exposes the Illuminati's underbelly with Fritz's level of adroitness is going to come under attack by the Little Minions on the internet and from the '*justice*' system, which usually has no trouble in conjuring up a suitable 'charge' to fit the frame.

Fritz Springmeier has done nothing but give, give, and give some more, in the interest of educating the uninformed and unwary of this country of the diabolical agenda of the Illuminated Ones and has attempted mightily to expose their treachery before all is lost.
