

Susan Humphries

Author with medical training in Internal Medicine and Nephrology

Susan is a conventionally educated medical doctor who was a participant in the conventional system from 1989 until 2011. During those years she saw how often that approach fails patients and creates new diseases.

She left conventional medicine to research the many problems with mainstream medical theory.

She is the co-author of ***Dissolving Illusions***, which is available as [Paperback](#) in the USA, and in the [United Kingdom](#).

You can read her CV and background can be read [here](#).
