# STATE OF OKLAHOMA <br> 2nd Session of the 52nd Legislature (2010) 

## AS INTRODUCED

An Act relating to motor vehicles; creating the Oklahoma Sovereignty, Driver License Protection Act; 47 O.S. 2001, Section 6-106, as last amended by Section 6, Chapter 326, O.S.L. 2007 (47 O.S. Supp. 2008, Section 6-106), which relates to driver license applications; protecting residents from enrollment into an international biometric identification system; deleting certain application requirement; modifying requirement concerning social security numbers; prohibiting collection of social security numbers and biometrics for driver licenses, learner permits and identification cards; deletion of social security numbers and biometric information from active; archives and back-up storage; changes driver license photo specifications, allows specific uses of biometrics by law enforcement; prohibits certain technologies for driver licenses and identification cards; provides for increase in certain fees; provides for codification; providing for noncodification; and providing an effective date.
BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:
SECTION 1. NEW LAW A new section of law not to be
codified in the Oklahoma statutes reads as follows:
This act shall be known and may be cited as the "Oklahoma Sovereignty, Driver License Protection Act."
SECTION 2. AMENDATORY 47 O.S. 2001, section 6-106, as last amended by Section 6, Chapter 326, O.S.L. 2007 (47 O.S. Supp. 2008, Section 6-106), is amended to read as follows:

Section 6-106. A. 1. Every application for a driver license or identification card shall be made by the applicant upon a form furnished by the Department of Public Safety.
2. Every original, renewal, or replacement application for a driver license or identification card made by a male applicant who is a citizen of the United States and at least sixteen (16) but less than enty-six (26) years of age eighteen years and 30 days old, shall include a statement that by submitting the application, the applicant acknowledges an obligation to register with the is eonsenting to registration with the Selective Service System and that registration must occur before receiving a renewal driver license or identification card. A male, that is a citizen of the United States and is at least eighteen (18) years and thirty one (31) days old but less than twenty six (26) years old, must provide a one-time proof of registration, such as a "registration acknowledgement card," in order to receive an original, renewal or replacement driver license or identification card. Upon providing the one-time proof of registration, the Department shall not require proof of registration in the future and shall indicate on the applicant's record that the one-time proof of registration has been provided. The Department shall confirm the name on the proof of registration is that of the applicant, but the Department is prohibited from collecting any additional information from the proof of registration. The pertinent information from the application
shall be forwarded by the Department to the Data Management Center of the Selective Service System in order to register the applicant as required by law with the Selective Service System. Any applicant refusing to sign the consent statement shall be denied a driver license or identification card.
3. Every applicant for a driver license or identification card shall provide to the Department at the time of application both primary and secondary proofs of identity. The Department shall promulgate rules prescribing forms of primary and secondary identification acceptable for an original Oklahoma driver license, but shall not retain information collected from any form of identification, where such retention is, prohibited by law.
B. Every applicant for a driver license shall state upon the application the following information:

1. Full name;
2. Date of birth;
3. Sex;
4. Residence address and county of residence to be displayed on the license;
5. Mailing address, to be displayed on the license instead of residence address, and/or to be maintained by the Department for the purpose of giving notice, if necessary, as required by Section 2-116 of this title, or to be placed on ;
6. Medical information, as determined by the Department, which shall assure the Department that the person is not prohibited from being licensed as provided by paragraph 7 of subsection A of Section 6-103 of this title;
7. Whether the applicant is deaf or hard-of-hearing;
8. A brief description of the applicant, as determined by the Department;
9. Whether the applicant has previously been licensed, and, if so, when and by what state or country, and whether any license has ever been suspended or revoked, or whether an application has ever been refused, and, if so, the date of and reason for the suspension, revocation or refusal;
10. Whether the applicant is an alien eligible to be considered for licensure and is not prohibited from licensure pursuant to paragraph 9 of subsection $A$ of Section 6-103 of this title;
11. Whether the applicant has:
a. previously been licensed and, if so, when and by what state or country, and
b. held more than one license at the same time during the immediately preceding ten (10) years; and
12. Social security number only if the applicant is requesting the issuance of a commercial driver license.

No person shall request the Department to use the social security number of that person as the driver license number. Upon renewal or
replacement of any driver license issued after the effective date of this act, the licensee shall advise the Department or the motor license agent if the present driver license number of the licensee is the social security number of the licensee. If the driver license number is the social security number, the Department or the motor license agent shall change the driver license number to a computer-generated alphanumeric identification.
C. In addition to the requirements of subsections $A$ and $B$ of this section, every applicant for a commercial driver license with a hazardous material endorsement shall submit to a security threat assessment performed by the Transportation Security Administration of the Department of Homeland Security as required by and pursuant to 49 C.F.R., Part 1572 , which shall be used to determine whether the applicant is eligible for the endorsement pursuant to federal law and regulation.

The Department of Public Safety shall notify each commercial driving school of the passage of this section, and each commercial driving school shall notify prospective students of its school of the hazardous material endorsement requirement.
D. Whenever application is received from a person previously licensed in another jurisdiction, the Department shall request a copy of the driving record from the other jurisdiction and, effective September 1, 2005, from all other jurisdictions in which the person was licensed within the immediately previous ten (10)
years. When received, the driving record shall become a part of the driving record of the person in this state with the same force and effect as though entered on the driver's record in this state in the original instance. The Department is prohibited from collecting, retaining or disclosing a Social Security number received from another jurisdiction, agency or other entity, for the purpose of issuing a non-commercial driver license or identification card, but shall collect a Social Security number for the issuance of a commercial driver license.
E. Whenever the Department receives a request for a driving record from another licensing jurisdiction, the record shall be forwarded without charge.

SECTION 3. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 6-110.4 of Title 47, unless there is created a duplication in numbering, reads as follows:
A. An applicant for an original or renewal, non-commercial driver license, learner permit, intermediate Class D license, or identification card shall not be required to provide a social security number, for any reason, in order to obtain a non-commercial driver license, learner permit, intermediate Class D license or identification card.
B. Beginning on the effective date of this act, the application form for the issuance of an original or renewal noncommercial driver license, learner permit, intermediate Class D license or identification card shall no longer request a social security number.
C. Any state agency or department charged with motor vehicle registration or operation, the issuance or renewal of driver licenses, or the issuance or renewal of any identification cards, herein the Department, upon the effective date of this act, shall:

1. cease all biometric comparisons, and cease collection of any biometric data, biometric sample or biometric template, and
2. render inoperable any computer software capable of such comparisons, and
3. disconnect, from any computer system, all hardware used specifically for collecting finger images, and
4. modify existing computer software used for collecting facial images, so that facial images collected after the effective date of this act, do not exceed an uncompressed photographic resolution where the width of the head is forty-nine (49) pixels or more of resolution, which corresponds to a maximum full image width of eighty-five (85) pixels or more and a maximum image height of one hundred and six (106) pixels or more, and
5. collect facial images, in compliance with this section, using a white background and no facial image shall be collected using a blue background so that facial images collected in compliance with this section may be more readily distinguished from facial images previously collected at a higher resolution, and
6. not require any person submitting to a photograph or facial image collection to remove prescription corrective eyeglasses or to provide a specific facial expression, and
7. not retain more than one (1) facial image of the individual, and shall not collect any additional images, at the time of a driving examination or when an identification card or noncommercial driver license is issued or renewed, unless a previous attempt failed to collect a full frontal view of the individual's facial image that is a reasonable representation of the individual, for the purpose of identification by a human, and
8. retain only the facial image to be printed on the identification card or non-commercial driver license, and all previously collected images of the individual shall be permanently deleted, and
9. shall only use the facial image, collected by a driver license examiner, as the image used for licensing or identifying the individual so that the individual shall not

or operation, the issuance or renewal of any driver license, learner
permit, intermediate Class D license or the issuance or renewal of
any identification card, by any agency of this state, charged with
those activities, shall permanently be deleted from all active
databases, archival or back-up storage databases, that are in the
possession of the Department or of any third party relating to those
activities, within three (3) months of the effective date of this
act. However, the Department may, at its discretion, employ a
computer software program to permanently and irreversibly modify
existing facial images previously collected and contained in active
databases, archival or back-up databases so that, when modified,
such facial images do not exceed an uncompressed photographic
resolution where the width of the head is forty-nine (49) pixels or
more of resolution, which corresponds to a maximum full image width
of eighty-five (85) pixels or more and a maximum image height of one
hundred and six (106) pixels or more, so that all retained facial
images are in compliance with facial image pixel resolution
requirements of this section. If the Department elects to modify
existing facial images, collected before the effective date of this
act, then the Department shall develop a procedure to permanently
destroy all such facial images, from all active databases, archival
or back-up databases, within three (3) months, once a facial image,
that is in full compliance with this section, is obtained from the
individual.
F. For purposes of this section, "biometric data", "biometric sample", and " biometric template" include, but are not limited to:

1. Facial feature pattern characteristics;
2. Computerized facial image or hard copy of the same that when scanned by electronic means may be used to create a computerized facial image that exceeds an uncompressed photographic resolution where the width of the head is forty-nine (49) pixels or more of resolution, which corresponds to a maximum full image width of eighty-five (85) pixels or more of resolution, and an image height
of one hundred six (106) pixels or more of resolution;
3. Voice data used for comparing live speech with a previously created speech model of a person's voice;
4. Iris recognition data containing color or texture patterns or codes;
5. Retinal scans, reading through the pupil to measure blood vessels lining the retina;
6. Behavior characteristics of a handwritten signature, such as shape, speed, pressure, pen angle, or sequence;
7. Fingerprints, palm prints, and other methods for measuring or recording ridge pattern or fingertip characteristics;
8. Keystroke dynamics, measuring pressure applied to key pads;
9. Hand geometry, measuring hand characteristics, including the shape and length of fingers, in three (3) dimensions; and
10. Deoxyribonucleic acid (DNA) and/or ribonucleic acid (RNA).
G. This Section shall not be construed as preventing the following;
11. The collection or retention of photographs or fingerprints, including for biometric comparisons, for the purpose of enforcing laws relating to serious traffic offenses including, but not limited to, driving while intoxicated, reckless driving, negligent homicide with the use of a motor vehicle, operating a motor vehicle after being declared a habitual motor vehicle offender, or any other offense for which a physical custody arrest is required; or
12. The use of finger imaging software, and related equipment, only at specific locations designated by the Department, where fingerprints are collected for the purpose of performing criminal record checks required under federal regulations governing the issuance of hazardous materials endorsements on driver licenses and the taking, and retention, of fingerprints for that express purpose.
13. The use, collection, storage or disclosure of a Social Security number relating to a commercial driver license.
14. Requesting and receiving motor vehicle and driver license records or from having legal access to information in the possession of the Department, by law enforcement agencies, provided that such access and requests for such information are specific to individual records and individual persons.

1
5. Enforcement of laws relating to child support, provided
that such enforcement does not require the collection, retention or
disclosure of a Social Security number of an applicant, to the
Department.
H. The Department shall develop a procedure whereby an
individual may renew, or replace, a non-commercial driver license or
identification card by mail, when unable to appear in person for
renewal or replacement. An individual may make an application by
$\underline{\text { mail for replacement of a non-commercial driver license or }}$
$\underline{\text { identification card, at any time, or apply to renew a non-commercial }}$
$\underline{\text { driver license or identification card, up to six (6) months in }}$
advance of expiration date. Any person under the age of twenty-one
(2l) shall be able to renew or replace a non-commercial driver
Technology", or "RFT", or similar technologies or devices, that are
license or identification card by mail, one (1) time, and any person
over the age of twenty-one (21) years, shall be able to renew, or
replace, a non-commercial driver license or identification card by
mail, up to two (2) times, during a period of no more than nine (9)
capable of storing and transmitting personally identifiable
information or unique numbers, codes, or algorithms which directly
correlate to personal information held in another location,
database, or device. This subsection shall not be construed as
applying to devices used for identifying persons relating to
punishment for criminal offenses, where such identification uses are
allowed by law, or for such devices used for toll road passes.
J. The Department may increase the fee collected for an
original, renewed or replacement, non-commercial driver license or
identification card, for the purpose of implementing this act. This
increase shall not exceed twenty percent (20\%) of the maximum amount
collected before the effective date of this act, for similar
documents, and that the additional collection of such fees shall not
exceed five (5) years, of the effective date of this act. Any
increase in fees collected shall not exceed the actual increase in
cost to the Department incurred in the implementation of this act.
SECTION 4. It being immediately necessary for the preservation
of the public peace, health and safety, an emergency is hereby
declared to exist, by reason whereof this act shall take effect and
be in full force from and after its passage and approval.
