

How To Become Free Of Supermarkets And Drugstores with the Home Grown Food Summit!

This April 6th-12th there is an online gathering of 30+ experts in backyard food production, homesteading, and off-grid living. Presented by the worlds leading researchers, organizations, and best-selling authors to help you become free of supermarkets and drugstores.

This is the biggest event for home grown food ever organized online. Sponsored by Mother Earth News, The Natural News, The National Gardening Association, The American Preppers Network, and The Livestock Conservancy just to name a few.

It's FREE. Reserve your spot by clicking here:

www.HomeGrownFoodSummit.com

Get started growing, or take your skills to the next level, this Summit has something for everyone.

- 8 different gardening methods
- 3 presentations on wildcrafting food
- 3 techniques for preserving food
- 5 presentations on small livestock
- 2 experts on rain and gardening without irrigation (even in dry lands)
- 3 presentations on working with kids

PLUS, you'll get 4 bonus e-books, just for signing up:

"How Much Land Do You Need To Grow All Of Your Own Food?"

"6 Ways To Keep Chickens and Best One For Your Yard"
